BARN AND STABLE DESTROYED BY FIRE

The large new barn and stable recently finished on the farm of Edward F. Prichard, near Escondido, was entirely destroyed by fire of unknown origin about ten o'clock Tuesday morning. The flames were discovered by Mr. Prichard, who was awakened by squealing of a horse as if in agony, and by the unusual light which streamed into his sleeping room. Going to the door Mr. Prichard found the barn and stable in flames.

The fire was also seen by neighbors, who hurried to the place, but before they could arrive or be of material assistance the structure was entirely destroyed. Mint, a Rock Sand thoroughbred, owned by S. H. Velle, of Kansas City, Mo., was in the stable, and was burned to death before help could be obtained to release him and get him to safety. A large quantity of rye, shelled oats, corn, baled hay, feed, and farming implements were also destroyed by the fire.

Mr. Prichard estimated his loss at about \$25,000, with about \$4,000 insurance. Incendiarism is suspected.

RAIN AND HAIL VISIT BOURBON COUNTY.

The drought that has prevailed in this county for over two months was partly relieved by a heavy rain which fell Tuesday afternoon. Hail was reported in the vicinity of the homes of Mrs. Charles C. Leer and Jesse Turney, their tobacco crops being injured to some extent by the pelting hail, which cut through the leaves. Branches in the immediate neighborhood overflowed the roads. On both sides of Stoner creek for some distance, limbs of trees were blown off, and in a number of instances, as noted personally by THE NEWS man Wednesday afternoon large trees were blown down.

The storm did not cover all portions of the county, being severest in the sections toward Millersburg and vicinity. In Paris the downpour lasted but a few minutes. The rain was not sufficient to relieve the situation, which is becoming acute. Stock water is becoming scarce throughout the county. In some places in the city the unusual demand on cisterns has caused the supply to run so low as to compel the owners to partly fill them with hydrant water.

Twenty-five acres of tobacco, ready to be topped, was destroyed by a hail-storm which visited a section of Scott county Tuesday afternoon. The hail-storm was followed by a general rain which promised to aid crops over the entire county. The hail fell along the Iron Works pike, four miles from Georgetown.

Bourbon county farmers whose crops are burning up will be surprised to receive this statement from Government officials at Washington: "Prolonged droughts, practically world-wide, promises the American farmer unparalleled prosperity for several decades." What the farmers want now is rain, not promises of prosperity in 2935.

ANOTHER ECHO OF ALEXANDER BANK CASE

A mandate in the case of James P. Lewis, banking commissioner of the State of Kentucky, against the Fifth-Third Bank of Cincinnati, was filed from the Circuit Court of Appeals, in Cincinnati, Monday, closing the case.

This disposes of a suit for \$33,640 against the Cincinnati Bank brought about through the collapse of the Alexander Bank, of Paris, which sum was loaned to the Kentucky bank by the Fifth-Third Bank. It was asserted that the charter of the Alexander Bank prohibited borrowing funds exceeding a total of \$10,000. However, approximately \$43,640 was loaned by the Fifth-Third Bank to the Kentucky institution, it had been stated.

Suit to recover securities covering the loan was filed and a decision in favor of the Cincinnati Bank was handed down in the United States district court. The mandate affirmed the decision of the court.

BUSINESS MEN TO BOOST TOBACCO MEN'S MEETING

Headed by the Paris City Band, local business men and Bourbon county tobacco growers will parade through the business section of the city Saturday afternoon to demonstrate their interest in the co-operative tobacco marketing plan and to advertise a big meeting to be held Monday afternoon at the court house. Representatives of practically all lines of business held a meeting Wednesday afternoon at the Commercial Club office when arrangements were made for the participation of business men in the parade and for the representation in it of practically all firms. The parade will form at Fourth and High streets at 3 o'clock. The meeting to be held at the court house, will be addressed by James N. Kehoe, of Maysville, a prominent business man, and ex-Congressman. He will explain the advantages of the co-operative marketing plan and all tobacco growers and business men are urged to hear this address. Special efforts will be made to have representatives at the meeting from all sections of the county.

The campaign to enroll members in marketing association is progressing favorably and some precincts have signed 90 to 95 per cent of the growers.

M. M. I. CORNERSTONE TO BE LAID TO-DAY.

All Millersburg and vicinity, as well as many other portions of Bourbon county, will be out in force this afternoon to attend the ceremonies of laying the cornerstone of the new Millersburg Military Institute building, an institution of which our little sister city expects great things in the future. The ceremonies will begin promptly at two o'clock, at which time it is expected one of the largest crowds ever seen on the grounds will be present.

As previously announced by the committee of arrangements, the principal speaker of the day will be Dr. A. W. Fortune, of Lexington, an orator whose reputation is second to none. Short addresses will be delivered by the different heads of the various schools of the kind. Music will be furnished for the occasion by the Bourbon Orchestra, of Paris.

In the past the Millersburg Military Institute represented an ideal that was fondly cherished by the people of Millersburg. The new institution, under the management of Maj. Nelson bids fair to attain the oldtime popularity and prosperity it held under the guidance of Col. and Mrs. C. M. Best.

A large attendance from Paris and vicinity will be present to witness the ceremonies and to extend good wishes to Millersburg and its new M. M. I.

A LETTER FROM MR. GLASS OF THE PARIS BAKERY AND GROCERY

Dear Mr. Customer:

I take this method of thanking you for the very liberal patronage during the past few months since I have opened up the grocery business in connection with my bakery. I have had a number of bargain days on Saturdays and court days. At these sales I have offered wonderful bargains, specials that have not been made since before the war.

The public has appreciated these sales and by the great volume of business brought to us through them I have made money and I am going to continue these special bargain days.

Watch for these specials through the papers. Our regular prices are far below those you have been paying elsewhere.

I would appreciate a continuance of your business and I will guarantee to save you money in the future.

Our stock is fresh and clean and is of the best to be had. The prices will speak for themselves.

Look in another column of to-day's BOURBON NEWS for an advertisement of specials that will surprise you.

WOMAN VOTER APPROVES BALLY PATON'S RECORD

To The Women Voters of Bourbon County:
Now is the time to prove your real patriotism by going to the polls and voting for Pearce Paton on Saturday, August 6.

Do you know that he has the best regulated office in the State?

Do you know that during the World War he gave absolutely without remuneration his time and talents?

Do you know he works actively for every good public movement in Bourbon county, and that he gives liberally of himself and of his means?

Do you know he is a member of the Y. M. C. A. Board?

Do you know that Pearce Paton refused the sum of \$2,400 provided as a salary for the secretary of the Bourbon County Draft Board during the world war; that he had a letter from the Adjutant-General and the Provost Marshal, Crowder, expressing in the highest terms their approval of his record in that office?

Do you know that no one worked harder or more faithfully to raise funds for meeting the deficit on the Bourbon County Y. M. C. A.?

Do you know that Pearce Paton's patriotism is of the one hundred per cent variety; that he even borrowed money to buy Liberty Bonds?

Do you know that no one ever was treated more courteously in the office of Pearce Paton, and that he has done more legal work without hope or expectancy of reward than any other officer in the county?

Do you know that personally Pearce Paton is of a modest disposition; that none of the above statements have emanated from him, but are matters of public knowledge to many hundreds of people? YOU DO KNOW that Pearce Paton's excellent record commends him to your intelligent use of the voting power.

OIL COMPANY STOCKHOLDERS HOLD MEETING

Stockholders of the defunct Bourbon Oil and Development Co., and the Co-operative Land and Development Co., an offshoot from the parent stem, held a meeting in the County Court room Wednesday morning pursuant to a call issued Monday. The object of the meeting was to select a committee to represent the stockholders at a hearing of the Company's affairs before Federal Judge A. M. J. Cochran, in Maysville.

Addresses were delivered by attorneys E. M. Dickson, C. A. McMillan and Denis Dundon. A committee composed of George Doyle, C. B. Mitchell, R. P. Walsh, John L. Soper and James Moreland, was appointed to attend the meeting. It was afterward decided to send attorneys to the meeting to represent the stockholders, Judge Denis Dundon acting in that capacity.

The action before Judge Cochran was one brought by the receivers to recover forty cents more per share on the stock of the Bourbon Oil and Development Company, and ten cents per share on stock of the Co-operative Land and Development Company. The stock, with a par value of one dollar, was sold at ten cents a share. Following the collapse of the two companies, the receiver entered an action to recover the other ninety cents. This move was abandoned in favor of the suit to recover forty cents on the Bourbon company stock and ten cents on the Co-operative stock.

The committee and the attorneys selected to represent the Bourbon county stockholders were instructed to resist the action of the receiver to the very last minute.
